

Natal Chart Report

What follows is your personal natal chart information, as well as interpretations of the positions and aspects in your chart.

With this report, you'll find out the positions of the planets in your natal chart by sign. The most personal of these are the Sun sign, Moon sign, Mercury sign, Venus sign, and Mars sign. Most people already know their Sun sign. If your time of birth is known, you will also find out your Ascendant, or rising sign, as well as the positions of the planets in the houses of your chart. Aspects between the planets are also listed and interpreted.

If the birth time is unknown, we cannot know the Ascendant or house positions. The natal chart shown here is an Aries chart in that case. Additionally, you may not know the Moon sign for certain. This is because the Moon changes signs approximately every 2-1/2 days. Less probable but still possible is a change of signs for the other planets and luminaries, depending on the planet itself (for example, the Sun changes signs every 30 days or so).

Each paragraph of interpretation refers to an individual position in your chart. All of these positions and aspects are some of the "parts" that make up a "whole"--you! Some of these interpretations will be contradictory, just as people are contradictory. A person can be timid in love and aggressive in business, for example. As well, we evolve and grow throughout our lives, facing challenges that help us to handle our positions and aspects in a different way. We all have choices, and one of the major benefits of astrology is the chance to understand ourselves so that we can work with our natal charts and improve ourselves. Any computerized report that interprets the individual placements in

a natal chart is somewhat disjointed, simply because the different parts that make up the whole are not synthesized.

Some of the interpretations are more detailed than others. You can use this as a starting point and do some further reading about different positions (such as Moon in Libra, Saturn in the 10th house, Moon conjunct Mercury) in your chart by exploring our own site, other astrology sites, and by reading astrology books.

The tables show the technical details of your natal chart, personalized based on your birth data. Below the tables, you'll find your free birth chart report.

Planet Positions, Ascendant, & Houses

The following table shows the position of the planets in your chart, by sign and degree. You will also find the sign of your Ascendant and the signs on the cusp of each house in your natal chart only if the birth time is known. The Roman Numerals refer to the houses, where the Ascendant is also the first house and the Midheaven is also the tenth house. For example, if the sign Taurus is next to Mars, you know your Mars is in Taurus. If the sign Libra is next to Venus, you know your Venus is in Libra. If Cancer is next to Ascendant, you have a Cancer Ascendant, and if Leo is next to II, Leo is on your 2nd house.

Natal Chart Report

BIRTH CHART

This birth chart report shows the positions of the planets for Iz.

The Sun

The Sun represents vitality, a sense of individuality, and outward-shining creative energy.

The Sun is in Aquarius

One of the standout characteristics of those born under the Sun Sign of Aquarius is their unwillingness to follow the beaten track. With advancement and progress on their minds, there can be an irreverence to old and outdated ways of thinking and doing things. Many Aquarians aim to free themselves of personal and social conditioning. Although open to change in theory, Aquarians can be surprisingly stubborn. Their idealism runs strong, but they can be very fixed in their opinions.

Often a bit aloof and even standoffish, Aquarians nonetheless are usually well-liked. They are curious and observant, and tolerant in a broad sense. Prejudice and bias is offensive to the typical Aquarius. Aquarians are generally very clever, witty, and intellectual. They value progress and frankness. It's difficult to throw Aquarians for a loop--they're generally on top of things. There is a bit of reformer in Aquarius. They'll try to get you to see through superficiality, and

encourage you to be open and forthright. "Be true to yourself" and "Don't follow the crowd" are mottos we easily associate with this sign. Aquarians need space and value personal freedom. Any attempt to box them in will likely fail. They'll happily return the favor; and they will treat people from all walks of life as equals. Equality and fairness are hallmarks of the sign. If you're quirky and "different", all the better.

Short description:

She is independent, autonomous, and has progressive ideas.

Weaknesses: an unusual, rebellious and revolutionary spirit.

Aquarius with ascendant Gemini

Sun in IX: The Sun is in the ninth house

You have a deep need to understand the world around you. You have high ideals and you have your eye on what's on the horizon. You are looking ahead, and at times can seem quite restless. You are proud of your knowledge and of your morals. Be sure to avoid self-righteousness in your enthusiasm to share your knowledge. When used correctly, you are a tolerant, adventurous, and curious person, and you want to see the best in people and in life.

14 Conjunction between the Sun and Uranus

It is natural for you to question tradition. You are, above all things, an individualist. You naturally rebel against that which is established. It doesn't mean that you consistently break all the rules, but you definitely do question some of the rules, especially those that simply don't make much sense. You possess a huge distaste for routine. You work best when you have some say as to when and how you get things done. You possess much self-integrity. You avoid labeling people and are most offended when others attempt to label or stereotype you.

You easily embrace new ways of doing things, you stick up for the underdog,

and you express yourself in unique and inspiring ways. You don't have to try to stand out as unique--you are original, creative, and progressive without trying. You are far from pretentious. You value honesty and truth, and you avoid putting on airs. You believe in the equality of people, and easily relate to people from all walks of life. You possess an unmistakable enthusiasm about life, and generally your life is interesting because you invite unusual or adventurous experiences into your life. You are generally appreciated by others because you are open-minded, fair, and not judgmental. Nothing really seems to faze you! You take things in stride, and are rarely shocked or taken aback by human behavior.

The Moon

The Moon represents the emotional responses, unconscious pre-destination, and the self-image. The Moon represents the emotions, and the Moon sign shows how a person expresses themselves when at home, at ease, and comfortable.

The Moon is in Sagittarius

More than anything, Lunar Sagittarians have a need for personal freedom and space. They are extraordinarily happy and easygoing folk, as long as they don't feel caged in or cooped up. Lunar Sagittarians have a simultaneous need for activity. Meeting new people, going out in the world, and travel are all important to their sense of well-being. They love open spaces, and, in their homes, a roomy and bright environment. There's a bit of a teacher in Moon in Sagittarius, and definitely a helpful spirit. They easily forget appointments and the like, and some are even considered irresponsible. However, it is hard to stay angry at a Lunar Sagittarian! They are so cheerful and upbeat, and their optimism is catchy.

Many people with this position are outdoorsy types. At the very least, they have a great love for friendly competition. When the going gets tough, these people run away. They don't like to be caught up in routine for too long, and they simply need to escape. There's a blind faith in Lunar Sagittarians that is

admirable. They simply believe that everything will work out. Not much for making detailed plans, people with Moon in Sagittarius prefer to wing it. They're very adaptable and generally on the go.

Short description:

May like to throw herself into the unknown and into adventure; she is agile, tough, and enthusiastic. Attracted to long voyages, to discovering the unknown.

Potential issues: may take great risks in throwing herself into the unknown and into adventure. Audacious, bold, and rebellious. Unable to stay in one place, always ready to risk everything to achieve her goal.

Moon in VI: The Moon is in the sixth house

Not always a natural leader, but can succeed in being the right-hand of an important person. In most cases, she is an employee, worker etc. usually by choice. She likes the country, respects Nature and adores animals.

You have an emotional need to be useful, to work productively, to be organized and on top of things, and to lead a healthy life. If these matters are chaotic in your life, it's a symptom of emotional unrest. You need a lot of variety on the job--to be stimulated and engaged in order to feel happy. Some of you might seem to change jobs often, forever in search of the "perfect fit" job. Acceptance that any job requires some level of routine is hard for you. You are very sensitive, and especially aware of minor health annoyances or body aches and pains. Some of you have hypochondriac symptoms. Some attempt to get out of things they don't want to do by emphasizing health problems or even exaggerate illnesses in order to gain sympathy. At your best, however, you're a person who always helps out and shows your affection for others in practical ways in order to help them solve problems and improve their lives.

48 Trine between the Moon and Lilith

This aspect favors romantic and sexual relationships, giving charm, intrigue,

and intelligence. Emotions are big, dark, and mysterious, but she embraces these things, instinctively understanding and accepting the many sides and complications of her feelings.

-96 Opposition between the Moon and Ascendant

She can be unhappily influenced by the family or childhood, or otherwise feel rather insecure about new beginnings and new situations. She may be always looking for more love, appreciation, and feedback. She is susceptible, perhaps with some superficial sensitivity and can sometimes be irascible, changeable, inconstant, and moody. However, she is usually highly intelligent, observant, and adaptable, and is very often misunderstood, projecting the wrong image more often than is comfortable.

Mercury

Mercury represents communication, Cartesian and logical spirit.

Mercury is in Capricorn

Her mind compartmentalizes impressions, and she appreciates structure and order. The mind learns best when it can see practical uses for information. Resourceful, reflective, deep thinker; a fine and vivacious mind. May undertake lengthy studies or, if circumstances do not allow, will teach herself. A rational person. Can be pessimistic, skeptical, and sarcastic, possessing a very sharp sense of humor. Notices everything.

Mercury in VIII: Mercury is in the eighth house

She likes research, investigations, inquiries. Studies well.

She is fascinated with all that is unexplored, mysterious, taboo, secret, and psychological. She loves research and has a great mind. She wants to know the motivation behind what people do. May have a good mind for financial

strategies. She may be tormented at night, unable to turn off the mind to rest deeply at times.

You have a great, investigative, and penetrating mind and you are excellent at developing strategies, as well as communicating them with others.

Her intellectual pleasures are very much influenced by her feelings. She is amorous and sensual. She likes beauty, the Arts, travelling, frequent changes of scenery. Aims always for diplomacy. Very charming.

170 Conjunction between Mercury - Neptune

She can put down in writing everything that her imagination and intuition dictates. A wonderful storyteller.

Venus

Venus represents an interest in emotions and values, exchange, and sharing with others.

Venus is in Aquarius

They are attractive when they are acting a little aloof. They want you to acknowledge and appreciate that they don't follow the beaten track in matters of the heart. Venus in Aquarius people are attracted to unusual or unconventional relationships. They don't want to follow all the rules, although

they may make quite a few of their own. They can appear quite standoffish at times, and are threatened by restrictions of any kind. Emotional types may be put off by their detached manner in love. Venus in Aquarius wants you to love them for their intellect, and to admire their visions. They value lovers who are also good friends, and they avoid emotional displays or confrontations like the plague. Venus in Aquarius will delight in shocking you with their unusual ways and their forward-looking thinking.

Pleasing Venus in Aquarius involves letting them know just how interesting they are. Put up with their occasional need to act superior on an intellectual level -- they are very proud of their unique ideas and visions. Dream along with them, and don't fence them in. They need space and will happily return the favor, giving you lots of room to breathe and to be yourself.

Venus in VIII: Venus is in the eighth house

Not frightened by the unknown. Sometimes this position means she has a peaceful and happy or natural end of life. Possible inheritance.

Intensity is what you seek in your love relationships, so that casual encounters are not necessarily your game. You are easily bored with mechanical interactions between partners, and might prefer drama in your relationships to anything mundane or superficial. However, you also fear being vulnerable in love, and, in youth, you may control your emotions in love. Fears of being betrayed may be at the heart of your somewhat jealous and possessive nature in love. When you give yourself over to love, you love wholeheartedly and expect all-consuming, total devotion and attention in return. You find passion a healing force in your life. Your charm runs deep--just below the surface. You are attracted to all that is taboo, hidden, forbidden, and find beauty in the broken, disenchanted, obsessed, and passionate. In some cases, people with this position might make a business out of love, romance, and eroticism. There is an intensity about you that others pick up readily. Either they run or they are completely intrigued!

She is amorous, not a peaceful and calm lover but a passionate one with a strong temperament. She is demonstrative in love, and usually fully enjoys healthy pleasures and life to the full.

In love, her sentiments are sincere and deep, she never plays false. She is, of course, faithful in love and friendship. She might love a much older person, appreciating that person's intelligence and good sense.

330 Conjunction between Venus - Uranus

Independent in love. Her love life is rich, but possibly with passing love affairs. She can tire quickly and can be scared of losing her liberty. Traditional marriage may not be for her. She has that little something that attracts others. She likes amorous adventures or unusual pastimes, she is romantic, although a little detached or unpredictable. She is the eternal lover and is more likely to break something off than live untruly. She likes art, anything new.

The ability to get along with--and accept--people from all walks of life as friends is strong with this position. She can readily see through insincerity in others. In relationships, tolerance is the most important "ingredient" to her. Her sexual preferences can be somewhat unconventional, and she may not be happy with a partner who tries to limit her sexual expression. She is usually quite capable of maintaining relationships that require a great deal of freedom and tolerance, such as long-distance romances or set-ups in which partners are

unable to see each other consistently. Her style in love can be somewhat free and breezy, and possibly noncommittal. She quite naturally accepts the idea that her partner might need some personal space and freedom.

266 Conjunction between Venus - Neptune

Her professional life can be creative or inconstant. She has a taste for the Arts, can be a dreamer, and may be easily influenced and romantic. She is emotional and very sensitive.

Romantic, creative, gentle, and adaptable, you naturally express the finer qualities of mysterious and dreamy Neptune in your love relationships. Your imagination is rich and your fantasy world well-developed. You are turned off by rudeness and crudeness, and are drawn to beauty in its many forms. You are very giving and generous, but may be a little on the submissive side, or sometimes downright lazy, failing to take the initiative when situations call for it.

13 Sextile between Venus - Pluto

Her emotional and sex life can be powerful and rich. She lives out truly passionate love affairs. Extremely resourceful, she is also excellent at determining the worth or value of material things. She can help others to discover their own worth as well. She is naturally attracted to relationships that transform her, that are growing and evolving, and that are intense. She can use her strong intuition and understanding of others for good or for bad, and this depends largely on other aspects in the chart. She can be highly devoted and passionate to the things (and people) she loves. She can be quite persuasive.

Although their overall goal is to live peacefully, they stir others up with their desire to balance everything. Still, they always play innocent when they are challenged, and can generally charm the birds out of the trees to win your favor. Passive-aggressiveness is practically the hallmark of this position. They don't want to look like they are ever being mean or unfair, but aggression has to go somewhere! Too often, this results in sneaky behavior and subterfuge. This can help put an end to extreme behaviors in these areas wherein there is a period of remorse after she seeks attention and perhaps goes to an extreme.

North Node-South Node

The South Node represents our overdeveloped character traits. We are talented here but if we overdo this area of life or hold onto these traits to feel secure, we may stagnate. The North Node points to the qualities that we need to work on and develop to achieve inner balance and fulfillment.

True North Node in Virgo

Her challenge is to live a more orderly, proactive, and practical life. Developing and following healthy and practical routines and schedules can be a challenge

but highly rewarding. Procrastination leaves her more vulnerable to vague worries and guilt. Qualities to develop: Organization, promptness, attention to detail.

North Node in IV: North Node in the Fourth House

Her path is to allow herself to be vulnerable, and from time to time, release the need to feel in control and on top of things. Once she does let others in, her life improves. Fixing her home life can enhance her career. Qualities to develop: nurturing and trust, tenderness, willingness to be vulnerable or to accept support.

The Houses

House I is the area of self identity. The ascendant is a symbol of how one acts in life. It is the image of the personality as seen by others, and the attitude that one has towards life.

Aquarius with ascendant Gemini

Ascendant is Gemini

Those born with Gemini rising see the world as a place to learn. They are curious about the people around them. Sounds similar to Sagittarius rising? Well it is, but there are some important differences. While Sagittarius seeks to expand their mental and physical horizons in a broad sense, Gemini is mostly interested in moving about in their social circles. These are people who love to ask questions, to move around freely, and to mingle. Definitely restless and often quick in physical expression, natives of the Gemini Ascendant exude an air of impatience even if they don't mean it. In fact, there is a cleverness to Gemini Ascendants that can intimidate some, especially sensitive folk. Their facility with words can be a wonderful asset, although sometimes Gemini rising individuals identify too much with their mental agility and forget, in their personal interactions and communications, to nurture the people around them. A certain lack of warmth in presentation can be the result, and although this

style is generally a facade, it is not immediately apparent to most. People with, for example, predominant Water signs may feel a little ill at ease with Gemini rising people (that is, before they get to know them more personally), while strong Air types more fully appreciate the fun and cleverness of these individuals.

I have found two styles of presentation most common with Gemini rising people. One style is bubbly, changeable, talkative, and a little quirky. These natives are interesting and fun. They constantly explain things, whether it's their own behavior and opinion or those of the world around them. Another distinct "style" is a rather cool and intellectual demeanor. These natives are often quite witty and clever, but they present themselves in a less cheerful and changeable way than the first group. Their observations are sharp and the overall manner is a tad brusque. No matter the style, Gemini rising natives are given to analysis and making sense of their world. Their powers of observation are well-developed, they are mentally active (more often than not, their minds are racing!), and they almost always have something bright or witty to say. It is easy for individuals with this position to get sidetracked, as their curiosity is large, their minds are quick, and their attention spans rather short! As children, natives born with a Gemini Ascendant are often labeled as the intellectual, inquisitive, and perhaps odd child. Many feel their upbringing lacked some warmth. In one-to-one relationships, Gemini rising people often seek a certain amount of personal freedom and space. They enjoy intellectual debates and exchanging ideas. Although they often demand a fair amount of freedom, they are often just as willing to give their partners room to breathe.
